LEADERSHIP INDICATORS

1. Awareness programs conducted for value chain partners on any of the principles during the financial year:

Total number of awareness programs held	Topics / principles covered under the training	Percentage of value chain partners covered (by value of business done with such partners) under the awareness programs
A majority of our outsourced vendors are required to adhere to a code of conduct for service providers, which is incorporated as part of the standard service contract with the objective of creating awareness on ESG and articulating our expectations from our vendors on ESG.		

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If yes, provide details of the same.[14]

Yes, we have implemented processes to avoid/manage conflict of interests involving members of the Board.

i. Every Director on the Board is required to make disclosure of his / her interest or concern in other entities (under Section 184 of the Companies Act, 2013 as also the parties to which such Director is related to (as under Section 2(76) of the Companies Act, 2013 and other laws applicable to the Bank). Such disclosure is required to be made as and when a Director attends first Board Meeting after his/her appointment on the Board and thereafter at every first Board Meeting held in a financial year as well as within 30 days from any change in the disclosure previously given by such Director.

ii. Director, if interested or concerned in any transaction(s) or arrangement(s) to be entered into by the Bank, does not participate in the discussion and passing of the resolution thereon.

[14]*GRI 2-15*

iii. The Bank has also put in place necessary mechanism and has formulated a Policy on Dealing with Related Party Transactions, keeping in view the requirements under Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the provisions of the Companies Act, 2013. This Policy provides a framework to ensure proper identification, approval and reporting of Related Party Transactions. Such transactions would be appropriate only if they are in the best interest of the Bank and its members.

iv. All transactions with Related Parties of the Bank are previously approved by the Audit Committee of the Bank. The Audit Committee also grants Omnibus Approval for Related Party Transactions of a recurring nature. Related Party Transactions, if not in the ordinary course or not at arm's length, are placed before the Board (based on the Audit Committee's recommendation) for its consideration and approval. If such transactions (which are placed before the Board of Directors) breach the threshold limits prescribed under Section 188 of the Companies Act, 2013 or if any transaction with a Related Party is material in nature as prescribed under Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, such transactions are also put up before the shareholders for their consideration and approval.

v. At the Audit Committee, only the Independent Directors who are members of the Audit Committee, consider and approve the transactions with related parties. At the Board, only those Directors who are not parties to the transaction(s) or arrangement(s) in subject or those who are not interested or concerned therein, participate to consider them. The interested Directors neither remain present nor do they vote on the resolution of Related Party Transaction. While seeking Shareholders' approval, no Related Party of the Bank, whether party to a particular transaction or not, votes to approve such transaction.

vi. In terms of Regulation 20 of the Banking Regulation Act, 1949, the Bank does not extend any loans or advances on the security of its own shares, or commit to grant any loan or advance to or on behalf of its Directors, any firm in which a Director is interested as partner, manager, employee or guarantor, or any company or its subsidiary or holding company where Director of the Bank is a Director, Managing agent, manager, employee or guarantor or in which he holds substantial interest (as defined in Section 20 of the Banking Regulation Act, 1949), or any individual in respect of whom a Director of the Bank is a partner or guarantor.

PRINCIPLE 2: BUSINESSES SHOULD PROVIDE GOODS AND SERVICES IN A MANNER THAT IS SUSTAINABLE AND SAFE.

ESSENTIAL INDICATORS

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

Parameter	FY 2024-25	FY 2023-24	Details of improvements in environmental and social impacts
R&D Capex	As we operate in the financial services industry, this is not applicable.		

2. a. Does the entity have procedures in place for sustainable sourcing?

Kotak Mahindra Bank's Code of Conduct covers aspects of Human Rights, Health and Safety, Operational Eco-efficiency, etc., and indicates applicability to the Bank's vendors. Besides this, a focused 'Code of Conduct' for service providers' forms part of the service agreements with outsourced vendors.

b. If yes, what percentage of inputs were sourced sustainably?

As a financial services organisation, our direct consumption of consumables and input materials is limited. We strive to improve energy efficiency, use cleaner sources of energy and reduce paper consumption to a minimum. In FY 2024-25, Kotak adopted an initiative to utilise recycled paper; this has been implemented at select corporate offices, resulting in a total savings of 7.6 tonnes of virgin paper during the year. We have implemented usage of Green Seal Housekeeping chemicals, which are eco-friendly and reduce the impact on the environment.

We expect our vendors to comply with our Code of Conduct for service providers which includes aspects on Human Rights, Health and Safety, Operational Eco-efficiency, etc. All service contracts that were proposed to be signed and renewed in FY 2024-25 included the Code of Conduct for service providers as an annexure.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

As a financial services organisation and by the virtue of the services we offer, there may not be direct significant impacts to waste generation. However, we have undertaken measures such as partnering authorised waste management vendors to recycle our e-waste, sanitary waste and bio-medical waste, installing Organic Waste Composters (OWCs) across six of our corporate offices to convert our wet waste generated to manure, and have a buyback policy in place for batteries. We also have STPs which generate either no sludge or minimum quantities of the same. Please find further details of our approach to waste management on pages 93-95 of the 'Embracing Sustainability' section.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

No, as we are a financial services company, the waste generated is incidental to providing the banking service. Therefore, Extended Producer Responsibility (EPR) is not applicable to our activities. As per the E-waste Management Rules, 2022, bulk consumers shall ensure that e-waste generated by them is handed over only to a registered producer, refurbisher, or recycler, and segregated waste is sent to authorized waste processing/disposal facilities/deposition centers, either on its own or through an authorized waste collection agency. Kotak recognises its responsibility as a bulk consumer and disposes its e-waste through CPCB/SPCB-authorized recyclers.

10. Health and safety management system#[20]:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Yes, we have ISO 45001:2018 Occupational Health and Safety Management System (OHSMS) implemented for eight of our key corporate offices.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

An OHSMS is in place, and its manual serves as a comprehensive guide that outlines the governance framework and an action plan for conducting audits by the oversight team. The manual also clearly defines the scope and responsibilities of the teams tasked with overseeing the OHSMS. A monitoring plan takes into account factors including parameters measured, locations, scope and the methods used. The senior management is responsible for overseeing the evaluation of OHS performance and determining its effectiveness. Hazard Identification and Risk Assessment (HIRA) exercise as per the requirements of ISO 45001:2018 standard is conducted, where all the work-related hazards are identified and risks on a routine and non-routine basis are assessed, and their mitigation/preventive measures tabulated. The non-routine jobs are maintenance activities and extension of the premises etc. HIRA is reviewed annually or in light of any incident and revised accordingly if required. The updated HIRA is then circulated to all the relevant premises to ensure that the knowledge gathered is circulated and used by all.

At the ISO 45001:2018 certified premises, we adopted a process that includes, but is not limited to, how the work is organised, social factors, leadership and organisational culture, activities and situations, past relevant incidents, potential emergency situations, actual and proposed changes irrespective of the level and nature and changes in knowledge of and information about hazards. The Occupational Health & Safety (OH&S) Management Representative (HMR) ensures that hazard identification is conducted by persons with competence in relevant hazard identification methodologies and techniques and appropriate knowledge of the work activity. All jobs performed at our premises are supervised by the HMR. They ensure proper work permits are requested and granted prior to the job being undertaken, and also note and report work related hazards, if any. 'Toolbox talks' for routine and non-routine jobs are delivered to vendors undertaking work at our premises, as required which cover safety instructions and detailed processes to be followed to protect themselves from injuries or ill health and an OHSMS Hazard Identification Checklist is maintained. The methodology and criteria for the assessment of Occupational Health & Safety (OH&S) risks are defined with respect to their scope, nature and timing to ensure they are proactive rather than reactive and are used in a systematic way. Employees are also encouraged to report any hazardous situations by either calling a designated helpline or writing to a location specific helpdesk to enable timely and appropriate action.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes, we have processes in place for our employees to report on work-related hazards and enable them to remove themselves from such risks.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Yes, we provide our employees with access to non-occupational medical and healthcare services. We promote well-being of our employees through facilitating pre-emptive medical check-ups, in-house doctors and on call consultations. We also offer health and wellness initiatives, including yoga, meditation, Zumba and quiz sessions, online and onsite. Our "Health to the Power Infinity" website provides doctor consultations, nutritionist services, an Emotional Assistance Programme and pharmacy discounts with professionals available both on call and in-house.

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Safeguarding the health and well-being of our employees is of utmost importance to us. In FY 2024-25, we partnered with a service provider to offer the Annual Health Check across India. All eligible employees receive fully sponsored annual health check, while all other employees and their families can access these benefits at a discounted rate.

Additionally, we have introduced doctor and nutritionist consultations, emotional assistance programs, and pharmacy discounts at select premises. Employees can access these resources both on-call and through in-house facilities. Our Emotional Assistance Program (EAP) continues to support employees and their families. In FY 2024-25, employees accessed EAP services featuring sessions on depression, anxiety, stress, and conflict resolution. To support holistic well-being, we also offered online yoga, meditation, and Zumba sessions for employees and their families.

Beyond health initiatives, we prioritize employee safety through clear signage, regular training, toolbox talks, and safety features like handrails and anti-slip strips. A dedicated helpdesk addresses safety concerns, while fire drills and trained wardens ensure emergency preparedness. We also offer medical check-ups, in-house doctor consultations, ambulance access, ergonomic seating, and slip-proof flooring.[22]

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

There is an Occupational Health and Safety system implemented (ISO 45001:2018) that subjects us to continual improvement. In line with the requirement of the ISO 45001 standard, HIRA is catalogued and addressed by the relevant teams, which is updated on an annual basis or with the findings due to incidents, if any. Also, the external assessment reports are considered and observations from them are used to enhance the internal systems and processes.

LEADERSHIP INDICATORS

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N)?

PRINCIPLE 4: BUSINESSES SHOULD RESPECT THE INTERESTS OF AND BE RESPONSIVE TO ALL ITS STAKEHOLDERS

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.

Through our stakeholder engagement strategy, we had identified 7 key stakeholders based on their influence on our business strategy, vulnerability to business outcomes, and potential of the stakeholder to collaborate with us. These stakeholder groups that are perceived to be the most important for our business. An engagement strategy is tailored for each stakeholder group in accordance with their needs and expectations.

In FY 2023-24, we have conducted a comprehensive materiality assessment that assessed financial and impact materiality. During FY 2024-25, we reviewed the FY 2023-24 materiality assessment in consultation with key internal stakeholders to ensure alignment with emerging trends and sector dynamics. The review reaffirmed the continued relevance of our identified material topics, with no significant changes.

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board[25].

There are identified teams who actively engage with designated stakeholder groups. The feedback received from each stakeholder group is relayed to the respective Board-level Committees. These Committees discuss the feedback received from the stakeholders and suitable actions are taken towards enhancing our practices.

[25] *GRI 2-12, GRI 2-13 , GRI 2-16*

CSR and ESG Committee - It oversees the development, implementation, and monitoring of the ESG framework, and provides feedback to the Board on the Bank's ESG performance, progress, and compliance with relevant regulations and standards, thereby facilitating consultation between the Board and stakeholders on economic, environmental, and social topics.

Stakeholders Relationship Committee (SRC) – SRC oversees matters related to resolution of security holders' grievances, adherence to service standards for investor servicing, effective exercise of voting rights by shareholders, measures taken for reducing unclaimed dividends and other security holder-related matters, as per the responsibilities delegated to it by the Board.

Customer Service Committee - CSC has been constituted to bring about ongoing improvements in the quality of customer service and improving the level of customer satisfaction for all categories of clientele, at all times. CSC oversees customer service-related matters, including grievance redressal, fair practices, customer satisfaction, and provides periodic reports and detailed memorandums to the Board on these topics.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultation is used to support the identification and management of environmental and social topics. For instance, we engage with our investors and stakeholders on ESG topics they consider critical for us as a Bank and provide necessary public disclosures on our ESG performance. Our approach to materiality involves identifying and articulating relevant topics, recognizing associated risks, opportunities, and impacts, preparing surveys and conducting stakeholder consultations, analyzing the responses received, presenting the findings to the management and Board, and ultimately integrating the materiality outcomes into our strategy. The material topics identified through this approach informs our ESG policy framework found here –

https://www.kotak.com/content/dam/Kotak/investor-relation/governance/Policies/ESG-framework-2022.pdf

Our ESG policy framework outlines our commitment to each of the focus areas identified by us. We also encourage our employees and customers to follow environmental-friendly practices by leveraging technology. We have instituted diversity and inclusion, equal opportunities, and other employee- related policies and practices to promote a fair workplace. Our Code of Conduct for service providers conveys our expectations from our business associates and vendors to address ESG topics in their operations. In order to create awareness about ESG among communities, we implement various programs that not only focus on their upliftment, but also enhance their practices to be more environmentally conscious through some of our CSR interventions.

3. Provide details of instances of engagement with, and actions taken to address the concerns of vulnerable/ marginalized stakeholder groups.

We are committed to ensuring accessibility and inclusivity for all stakeholders, including vulnerable and marginalized groups. To address the concerns of people with disabilities, we have over 650 branches and 980 ATMs that facilitate barrier-free access to our banking services.

Financial literacy is a crucial aspect of empowering our customers and communities to effectively utilize our banking services. During the financial year, we organized over 4,100 financial literacy camps through our rural branches. Additionally, we regularly conduct various digital campaigns to educate our customers and the community on financial matters. For further details on our financial inclusion efforts, please refer to pages 84-85 of the 'Embracing Sustainability' section in this Report.

Furthermore, we undertake various need-based community programs aligned with our identified CSR focus areas, which include education and livelihood, healthcare, environment and sustainable development, and sports. These programs are designed to uplift and empower marginalized communities. For comprehensive details on our CSR initiatives, please refer to pages 112-121 of the 'Supporting Communities' section in this Report.

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

We have a robust Code of Conduct for our employees that includes clauses on anonymity and confidentiality to ensure employees can freely raise their concerns without hesitation. We also make provisions to enable employees to raise anonymous complaints and have zero tolerance for workplace retaliation:

- Anonymity and Confidentiality: We maintain strict confidentiality regarding all complaints and related investigations, treating them with utmost sensitivity in compliance with applicable laws and regulations. Employees are provided with the option to raise anonymous complaints, which are accessible only to authorized personnel, such as the Business Head, Human Resources team, and other control functions, as permitted by law. The final action taken is documented and maintained for future reference.

- Workplace Retaliation: Our organization has a zero-tolerance policy towards any form of retaliation against individuals who, in good faith, report suspected unethical or illegal conduct. This includes, but is not limited to, fraud, securities law or regulatory violations, potential breaches of company policies such as the Code of Conduct, or other inappropriate workplace behavior. Should an employee experience retaliation, they are encouraged to report the incident to the Human Resources team or through our designated Employee Portal (Kotak Worklife), where their concerns will be addressed promptly and appropriately.

Energy intensity (optional) – the relevant metric may be selected by the entity (GJ/FTE)	6.31	6.17

Notes:

- *Coverage of reporting has been enhanced, it includes 13 new corporate offices, 203 additional bank branches including two international bank branches (reported first time), and 654 subsidiary premises from FY 2023-24 and hence the data is not comparable to FY 2024-25.*
- *Wherever actual units consumed were not available we had estimated energy charges as percentage of overall electricity bill through random sampling of electricity bills sourced from various premises across regions. In FY 2023-24 and FY 2024-25, the state-wise average grid tariff was used for estimating the units consumed. In FY 2024-25, we have used state-wise tariff rates provided by SEBI's latest circular on Sustainable Reporting (BRSR) Core. These tariffs are higher than the rates used by us in FY 2023-24. As a result, the consumption units for FY 2024-25 would be lower even if the amounts spent were the same as FY 2023-24*
- *For the Bank branches, offsite ATMs and subsidiary premises, where neither billing amount nor consumption data was available, we have estimated consumption based on average calculated from recorded data shared*
- *In FY 2024-25, we also included units consumed from DG set owned by lessors for corporate offices wherever the data was available (First year of reporting on DG set units). Since, batteries get charged by grid electricity, the power supplied by the batteries is already covered in the grid electricity units.*
- *In FY 2022-23 and FY 2023-24, we had not included electricity consumption for premises, which were operational for less than six months. In FY 2024-25 we, we included the electricity consumption from such premises as well*
- *Number of offsite ATMs has reduced (closed offsite ATMs account for 2/3rd of the reduction in electricity consumption vs. FY 2023-24). Balance reduction is from tariff change & energy saving initiatives.*
- *FTE refers to full time employees of the Bank at the end of the financial year*
- **Renewable energy is primarily sourced from open access and also obtained from the rooftop solar installations at select premises*
- *** This data also includes energy consumed at the Bank premises shared with a few subsidiaries*
- *Intensity ratios have been computed based on Total Revenue which includes Interest Earned under Schedule 13 and Other Income, excluding profit/(loss) on sale of buildings & other assets (net) earned under Schedule 14 of the Audited Standalone Financial Statements of the Bank. For the purpose of calculation of revenue adjusted Purchasing Power Parity (PPP), conversion factor @20.66 ₹/USD as per International Monetary Fund (IMF) website has been considered which is in line with the SEBI guidance*
- *For more detail*s, refer page 88 in the Embracing Sustainability section

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, reasonable assurance undertaken for this indicator. For FY 2024-25, assurance is provided by DNV Business Assurance India Pvt. Ltd.

2. Does the entity have any sites / facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

This is not applicable to us, as we do not have any sites or facilities identified as designated consumers (DCs)

3. Provide details of the following disclosures related to water, in the following format[30]:

Parameter	FY 2024-25	FY 2023-24
Water withdrawal by source (in kilolitres)		
(i) Surface water	0	0
(ii) Groundwater	0	0
(iii) Third party water	2,63,789.9	0
(iv) Seawater / desalinated water	0	0

Water intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total water consumption / Revenue from operations adjusted for PPP) (kilo litre/revenue from operations adjusted for PPP in crore USD)	36.69	61.48
Water intensity in terms of physical output		
Water intensity (optional) – the relevant metric may be selected by the Entity (KL/FTE)	1.60	2.19

Notes:

- *Refer pages 92-93 in 'Embracing Sustainability' section, which describes the change in methodology, assumptions and boundary considered by the Bank in measuring and estimating the aforesaid disclosures for the financial year ended March 31, 2025. Due to the change in methodology the data for FY 2024-25, it is not comparable with the data for FY 2023-24. The boundary of water withdrawal and water consumed for FY 2024-25 is key corporate offices only.*
- *FTE refers to full time employees of the Bank at the end of the financial year*
- *Using the same methodology and boundary as FY 2023-24 total amount of water withdrawal would be 7,42,298.31 KL & consumption would be 1,48,459.66 KL*
- *Intensity ratios have been computed based on Total Revenue which includes Interest Earned under Schedule 13 and Other Income, excluding profit/(loss) on sale of buildings & other assets (net) earned under Schedule 14 of the Audited Standalone Financial Statements of the Bank. Yes, reasonable assurance undertaken for this indicator. For FY 2024-25, assurance is provided by DNV Business Assurance India Pvt. Ltd.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, three of our key corporate offices are Zero Liquid Discharge (ZLD) premises, having sewage treatment plants (STPs) which enables treatment and reuse of wastewater, thereby eliminating any discharge into the environment. These three premises utilize recycled water for non-potable purposes such as flushing in washrooms and horticulture activities. These premises house around 6,000 employees and reused 53,477 KL of water in FY 2024-25. Along with the ZLDs, we have five premises equipped with rainwater-harvesting facilities, which help recharging groundwater aquifers while also supporting irrigation activities. We have also installed low-flow plumbing fixtures and we promote a culture of water conservation among employees by encouraging responsible habits.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:[32]

Parameter	Please specify unit	FY 2024-25	FY 2023-24
NOx			
SOx			
Particulate matter (PM)	As a financial services company, air emissions from our operations are not significant. We monitor our GHG emissions, which have been disclosed on pages 491 & 495 under principle 6 of BRSR.		
Persistent organic pollutants (POP)			
Volatile organic compounds (VOC)			
Hazardous air pollutants (HAP)			
Others – please specify

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format[33]:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 1 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	Metric tonnes of CO2 equivalent	14,701.1	8,403.9
Total Scope 2 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs,SF6, NF3, if available)	Metric tonnes of CO2 equivalent	87,287.2	85,788.9
Total Scope 1 and Scope 2 emission intensity[34] per rupee of turnover (Total Scope 1 and Scope 2 GHG emissions / Revenue from operations)	Metric tonnes of CO2 equivalent/Revenue from operations in ₹crore	1.50	1.68
Total Scope 1 and Scope 2 emission intensity[34] per rupee of turnover adjusted for Purchasing Power Parity (PPP) (tCO2e/ revenue from operations adjusted for PPP in crore USD)	Metric tonnes of CO2 equivalent/Revenue from operations adjusted for PPP in crore USD	31.04	34.00
Total Scope 1 and Scope 2 emission intensity[34] in terms of physical output		NA	NA
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO2 Equivalent/ FTE	1.35	1.21

Notes:

- *Coverage of reporting has been enhanced, it includes 13 new corporate offices, 203 additional bank branches including two international bank branches (reported first time) and 654 subsidiary premises from FY 2023-24, and hence the data is not comparable to FY 2023-24.*
- *Scope 1 coverage includes emissions from firefighting equipment, diesel consumed in DG sets and refrigerant refilling in the air conditioning devices from the Bank managed premises.*
- *Scope 1 data for the bank is inclusive of the offsite ATM data as well, as the data is negligible it has not been put out separately*
- *Scope 1 emissions from two international sites and for leased offices were not accounted for, as we do not have direct operational control over these facilities. As reporting for scope 1 is not 100% for all locations on all parameters, below mentioned are the limitations:*
  - *Diesel reporting is limited to locations where DG sets are available and managed by Kotak*
  - *Refrigerant and Fire extinguisher emissions are based on actuals for all offices and branches of the Bank. Scope 1 data for the Bank is inclusive of the offsite ATM data as well, as the data is negligible it has not been put out separately.*
- *Scope 1 calculations done for FY 2024-25 are based on the emission factors taken from IPCC, AR6 – updated in August 2024 (this includes all the GWP values used for the refrigerant gases and fire extinguishers and the emission factors used to calculate emissions generated from diesel consumption), had we used the same emissions/conversion factors as used in FY 2023-24*
  - *Emissions from diesel would have been 0.3% more for the Bank*
  - *Emissions from refrigerant refilling would have been 13.7% lesser for the Bank*
  - *Emissions from fire extinguisher refilling would have been 4% lesser for the Bank*
- *In FY 2024-25, we also included the emissions from DG sets owned by lessors of leased premises that power Bank premises for key corporate offices under Scope 2*
- *In FY 2024-25, we also included Scope 2 emissions from premises which were operational for less than 6 months, this was not accounted previously*
- *Renewable energy procured for three of our key corporate offices through open access was 5.28% of the total energy procured (5.5% of the total electricity procured for the Bank) for FY 2024-25. This was removed from the Scope 2 emission calculations as it was confirmed by the vendor to be green energy and was not registered under any RECs. This has resulted in a reduction[35] of 5,053 tCO2e in Scope 2 emissions*

[33]GRI 305-1, GRI 305-2 | [34]GRI 305-4 | [35]GRI 305-5

- *Scope 2 GHG emissions are calculated based on emission factors in Central Electricity Authority, Govt. of India (CEA Version_20.0): Grid Emission Factors - Weighted Average Emission Rate (Incl RES), including cross-border electricity transfers which is 0.727 kgCO2 per kWh for FY 2024-25 and was 0.716 for FY 2023-24.*
- *Intensity ratios have been computed based on Total Revenue which includes Interest Earned under Schedule 13 and Other Income, excluding profit/(loss) on sale of buildings & other assets (net) earned under Schedule 14 of the Audited Standalone Financial Statements of the Bank. For the purpose of calculation of revenue adjusted Purchasing Power Parity (PPP), conversion factor @20.66 ₹/USD as per International Monetary Fund (IMF) website has been considered which is in line with the SEBI guidance*

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, reasonable assurance undertaken for this indicator. For FY 2024-25, assurance is provided by DNV Business Assurance India Pvt. Ltd.

8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.[36]

Yes, we undertake initiatives to reduce our GHG emissions. We have sixteen LEED/IGBC certified premises across nine cities and seven additional premises are currently undergoing the certification process, targeted for completion by FY 2025-26. Each of the certified premise meets the requirements of the green building rating system certification established by the U.S. Green Building Council and India Green Building Council (IGBC) as per their certifications, while having best-in-class resource efficient installations. These installations help monitor and control energy consumption. There are other initiatives as well which help us reduce GHG emissions, such as:

- ***Smart lighting solutions:** Sensor-based lighting systems and timer-controlled lights were utilised across our premises to optimise energy usage during non-occupancy hours.*
- ***Sustainable lighting:** Replacement of around 675 traditional light sources with LED lights for signboards and occupancy and daylight sensors installation in non-emergency light fixtures resulted in reduced energy consumption.*
- ***Efficient glow signage management:** Timer controls were installed at over 1,900 premises to regulate operating hours of glow signage boards and minimise unnecessary energy usage.*
- ***Energy-efficient parking area lighting:** Transition from normal lighting to dimmable lights at our parking areas was done to reduce electricity consumption during non-occupancy periods.*
- ***Temperature management:** Consistent temperature of 24°C for air conditioning was maintained to minimise energy consumption and improve comfort levels.*
- ***AI-powered energy monitoring:** AI-driven module to monitor energy consumption of air conditioners, enabling data-driven decision-making.*
- ***Virtual server adoption:** Transition from physical servers has become 85% in FY 2024-25 from 75% in FY 2023-24, reducing both energy consumption and resource utilisation.*
- ***Energy-efficient equipment procurement:** Procurement of 3-star rated or higher energy-efficient electronic equipment, such as LED lights, air conditioning units, microwave ovens, and refrigerators was ensured to promote better energy efficiency, longer lifespan, lower electricity consumption, and reduced maintenance costs.*
- ***Variable Air Volume (VAV) systems:** The implementation of pressure-independent VAV systems optimised air distribution, enabling temperature control according to user requirements and reducing energy consumption during non-occupancy periods.*

For further details on initiatives, please refer to 'Embracing Sustainability' of this Report.

Note:

- *Refer pages 93-95 in 'Embracing Sustainability' section, which describes the change in methodology and assumptions considered by the Bank in measuring and estimating the aforesaid disclosures for the financial year ended 31st March, 2025. Due to the change in methodology the data for FY 2024-25 is not comparable with FY 2023-24. The boundary of waste for FY 2024-25 is key corporate offices only, though E-waste and Construction & Demolition waste has been reported for all Bank premises, while Sanitary waste was reported from all key corporate offices and select branches where segregation of sanitary waste was run as a pilot.*
- *FTE refers to full time employees of the Bank at the end of the financial year.*
- ** Biomedical waste generated is 0.002 metric tonnes, as we have rounded the number to 1 decimal point it appears as 0 in the table above. The biomedical waste generated 0.002 metric tonnes was incinerated*
- *** All paper purchased is considered as paper waste, paper which is sent out through authorized vendors is considered to be recycled and the remaining we consider to be landfill which may or may not be the case (due to lack of information on disposal method of third party vendors it is considered as a landfill)*
- *[$] Out of the 0.0036 metric tonnes of biomedical waste generated 0.0031metric tonnes was incinerated and 0.0005 metric tonnes was sent to landfill in FY 2023-24.*
- Intensity ratios have been computed based on Total Revenue which includes Interest Earned under Schedule 13 and Other Income, excluding profit/(loss) on sale of buildings & other assets (net) earned under Schedule 14 of the Audited Standalone Financial Statements of the Bank. For the purpose of calculation of revenue adjusted Purchasing Power Parity (PPP), conversion factor @20.66 ₹/USD as per International Monetary Fund (IMF) website has been considered which is in line with the SEBI guidance

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, reasonable assurance undertaken for this indicator. For FY 2024-25, assurance is provided by DNV Business Assurance India Pvt. Ltd.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

An internal process guides waste management at Kotak. While operating in the service industry, our waste encompasses paper, stationery, e-waste and organic waste (generated through our canteen). Other categories of waste monitored include construction waste, plastic as well as scrap metal, sanitary and sludge waste. Hazardous waste generated from our operations is negligible and includes used oil from fuel-based generators. We have proper process for disposing the generated waste in accordance with the regulations. We collect and safely dispose all the hazardous waste including bio-medical waste through authorised waste management agencies, have buy-back policy for batteries and we attempt to reuse and recycle most of the waste generated. We also undertake various initiatives during the year to reduce our waste such as:

- **Limitation of Single-Use Plastic usage:** Adoption of no single use plastic policy at select corporate offices, discouraging the use of single-use plastic bottles and promoting the adoption of reusable alternatives.
- **Food waste reduction and minimisation:** Implementation of strategies to minimise food wastage by adopting efficient inventory management practices and encouraging employees to plan meals and reduce consumption of perishable items.
- **Organic waste recycling** Organic Waste Converters (OWC) to convert food waste into manure, reducing environmental impact of our operations.
- **Reduction of paper waste through digitalisation:** Leveraging technology to minimise paper waste by adopting digital invoicing practices, streamlining our processes and reducing the need for physical documents.
- **Responsible e-waste disposal and hazardous waste management:** Responsible disposal of e-waste and hazardous waste through authorised channels, ensuring that all electronic devices and hazardous materials were handled and disposed of in an environmentally friendly manner.

For further details on initiatives, please refer to 'Embracing Sustainability' of this Report.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N)
We do not have any operations or offices in ecologically sensitive areas			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain(Yes / No)	Relevant Web link
We did not undertake any projects that required an EIA.					

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances.

S. No.	Specify the law / regulation / guidelines which was not complied with	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control boards or by courts	Corrective action taken, if any
We are in compliance with all applicable environmental law/ regulations/ guidelines in India.				

LEADERSHIP INDICATORS

1. Water withdrawal, consumption, and discharge in areas of water stress (in kilolitres):

For each facility / plant located in areas of water stress, provide the following information:

i. Name of the area

ii. Nature of operations,

iii. Water withdrawal, consumption and discharge in the following format:

As we are a financial services company, this is not applicable to our activities

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency?

Not Applicable

2. Please provide details of total Scope 3 emissions & its intensity, in the following format[38]:

Parameter	Unit	FY 2024-25	FY 2023-24
Total Scope 3 emissions (Break-up of the GHG into CO2, CH4, N2O, HFCs, PFCs, SF6, NF3, if available)	Metric tonnes of CO2 equivalent	42,397.1	47,005.3
Total Scope 3 emissions per rupee of turnover	Metric tonnes of CO2 equivalent/₹Cr.	0.62	0.84
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	Metric tonnes of CO2 Equivalent/FTE	0.56	0.60

Notes:

- *Refer pages 91-92 in 'Embracing Sustainability' section, which describes the change in methodology and assumptions considered by the Bank in measuring and estimating the aforesaid disclosures for the financial year ended March 31, 2025. Due to the change in methodology the data for FY 2024-25 is not comparable with FY 2023-24*
- *FTE refers to full time employees of the Bank at the end of the financial year*

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Yes, limited assurance undertaken for this indicator. For FY 2024-25, assurance is provided by DNV Business Assurance India Pvt. Ltd.

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Not Applicable

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Energy saving device installation	We had installed energy saving devices at 100 offsite ATMs in FY 2023-24	12% energy savings
2.	Energy saving device installation	Installation of energy saving devices at 100 more offsite ATMs is on-going (44% installation completed)	Energy savings
3	Solar Installation - Pilot	Rooftop solar commissioned at three premises in FY 2023-24 - 62 KVA	Generation of 23.46 MWh of clean energy in FY 2024-25

[38] *GRI 305-3*

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
4.	Solar Installation - Pilot	Rooftop solar commissioned at two more premises in FY 2024-25 - 40 KVA	Expected to help reduce 48 tCO2e annually
5.	Efficient glow signage management	Timer controls have been installed at over 1,900 premises to regulate operating hours of glow signage boards	Energy savings
6.	Sustainable signboard lighting	Replacement of approximately 675 traditional light sources with LED lights has been achieved	Energy savings
7.	Transition to recycled paper	recycled paper use has been implemented at select corporate offices - 7.6 tonnes of virgin paper was avoided	10.2 tCO2e emissions saved

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

We have a Business Continuity Management (BCM) Policy that provides guidance for proactively identifying and mitigating risks that may cause disruption to business, to minimize the impact of disruption, and to ensure continuity of key products and services at acceptable levels. It is reviewed annually for its continual improvement. Critical Units in the Bank have a Business Continuity Plan (BCP), which prescribes tested half yearly, the results are communicated periodically and are reviewed to ensure their effectiveness. These results are also submitted to the regulator.

We also maintain a comprehensive IT Disaster Recovery (DR) Plan, which outlines our disaster recovery objectives, disaster determination and recovery procedures, replication methodologies, drill protocols and frequency, ongoing DR maintenance, and defined Recovery Time Objectives (RTO) and Recovery Point Objectives (RPO). Kotak has established a robust infrastructure comprising a Primary Data Center (DC), a Near-Disaster Recovery (NDR) site, and a Far Disaster Recovery (DR) site for identified set of applications. The Bank prepares and executes DR drills for these applications in accordance with a predefined calendar and in alignment with regulatory expectations.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

There is an Environmental Management Systems Plan (EMSP) in place, which lays out the criteria to conduct due diligence and evaluation of select borrowers using an ESG lens. The borrowers are categorized in the EMSP, based on the potential of the sector to which a company belongs along with its associated social and environmental impact. The Plan indicates specific checklists for assessment, which depends on the nature of business and size of the transaction. Additionally, the EMSP outlines an exclusionary list, implementation of which is subject to periodic supervision and monitoring. In FY 2024-25, we have revamped the EMSP questionnaire by updating it in the context of current ESG standards and incorporating practical insights through implementation.

7. Percentage of value chain partners (by value of business done with such partners) that were assessed for environmental impacts.

Currently, we do not assess environmental impacts for our value-chain partners. We have implemented a code of conduct for all our outsourced vendors, which is incorporated as part of the standard service contract with the objective of creating awareness on ESG and articulating our expectations form our vendors on ESG. We also encourage our value-chain partners to proactively align their business operations to environmental best-practices.

PRINCIPLE 7: BUSINESSES, WHEN ENGAGING IN INFLUENCING PUBLIC AND REGULATORY POLICY, SHOULD DO SO IN A MANNER THAT IS RESPONSIBLE AND TRANSPARENT

ESSENTIAL INDICATORS

1. Public Policy Advocacy

a. Number of affiliations with trade and industry chambers/ associations – 18

b. List the top 10 trade and industry chambers/ associations (determined based on the total members of such body) the entity is a member of/ affiliated to[39].

PRINCIPLE 9: BUSINESSES SHOULD ENGAGE WITH AND PROVIDE VALUE TO THEIR CUSTOMERS AND CONSUMERS IN A RESPONSIBLE MANNER

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Bank has implemented a robust mechanism to receive and address consumer complaints and feedback effectively. As a service sector organization, customer centricity is our prime focus. We recognize the importance of prompt and efficient service delivery in ensuring customer satisfaction.

We adopt a holistic approach to establish service standards and continuously enhance the customer experience based on feedback received through multiple channels. Customers can conveniently provide feedback or lodge grievances through multiple modes. The Bank aims to ensure quick and effective handling of customer grievance, as well as prompt corrective & preventive action (including correction of the process, wherever required) in order to avoid recurrence of grievances.

We ensure a streamlined process for grievance redressal, encompassing three escalation levels:

Level 1: Customer Experience Centre, Net Banking / Web form, Branch, PO Box

Level 2: Dedicated Nodal Officer

Level 3: Principal Nodal Officer

Further, in line with the RBI recommendation, the Bank has incorporated the role of an Internal Ombudsman, who is an independent authority to review the Grievances raised by customers. Every complaint which is either partially or fully rejected, is shared with the Internal Ombudsman for review and consent. Only once the Internal Ombudsman consents, can the complaint be rejected. The decision taken by the Internal Ombudsman is binding on the Bank. If the customer is not satisfied with the response or has not received a response from the Bank within a month, then he/she can file a complaint with Banking Ombudsman. The details of the same is updated on the Bank's website.

Every complaint has a specified turnaround time which the customer would be informed of at the time of lodging a complaint. Customer at the time of login of complaint, would ordinarily be informed of the same. The Bank has dedicated teams to handle complaints at Level 1, Level 2 and Level 3. Additionally, there are teams specifically working on the complaints escalated to the Chairman / Managing Director's desk or the RBI banking Ombudsman under the Grievance Redressal desk.

In FY 2024-25, we have reinforced our grievance redressal framework by fortifying our Internal Ombudsman Support Desk with 11 members working closely with the 3 Internal Ombudsmen to address escalated issues effectively.

LEADERSHIP INDICATORS

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Information about Kotak Mahindra Bank's products and services are available on our website https://www.kotak.com/en/home.html

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

We carry out financial literacy and investor education programmes with an emphasis on expanding the knowledge of our customers and communities. Our goal is to create awareness among our existing and potential consumers with the requisite know how to make informed financial decisions and protect their data. We believe that financial literacy is a vital step in educating our customers on the effective usage of our banking services. During the financial year, we organised several financial literacy camps through our rural branches. We also conduct various digital campaigns to educate our customers on a regular basis.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

We proactively communicate with our customers through e-mail, SMS, WhatsApp, website, push notifications and our Mobile app to provide details regarding the potential and ongoing disruption of essential services. Additionally, we have established Relationship Management teams at our Physical branches and Voice channel with a team of Virtual Relationship Managers, who regularly connect with our customers via phone and through digital channels. This approach ensures transparent information about our financial products and services, enabling a seamless customer experience.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/ Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes, we recognise the importance of adequate, clear and transparent information being provided to our customers to enable informed decision making. We also train our employees to practice ethical lending practices and refrain from mis-selling of financial products to our consumers. Yes, we track Net Promoter Score (NPS) at two levels- Relationship NPS (R-NPS) and Transaction NPS (T-NPS). This helps us understand our customers' perception of the Bank as a whole. For further details please refer to page 56 of 'Generating Value for Customers' section.

WORKFORCE TURNOVER DATA [5#]

Turnover also includes attrition on account of death, superannuation, disciplinary action and non-regrettable exits by employees with low performance. The turnover rates have been calculated with the formula: No. of persons who have left the employment of the entity in the financial year *100)/Average no. of persons employed in the category. In line with the BRSR guidance, Average number of persons employed in a category has been calculated as (Persons employed in the category at the beginning of financial year + Persons employed in the category at the end of financial year)/2.

to the Management of Kotak Mahindra Bank Limited

Kotak Mahindra Bank Limited (Corporate Identity Number L65110MH1985PLC038137, hereafter referred to as 'KMBL' or 'the Company') has commissioned DNV Business Assurance India Private Limited ('DNV', 'us' or 'we') to undertake an independent assurance of the Company's disclosures in the Business Responsibility and Sustainability Report (hereafter referred as 'BRSR') for the period FY 2024-25. The disclosures include the BRSR Core attributes as per Annexure 17A and the non-financial disclosures as per Annexure 16 of the Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155, dated November 11, 2024.

Our Conclusion:

Reasonable level of Assurance- BRSR Core

Based on our review and procedures followed for a reasonable level of assurance, DNV is of the opinion that, in all material aspects the BRSR Core Key Performance Indicators (KPIs) under 9 ESG attributes (as listed in Annexure I of this statement) for FY 2024-25 are reported in accordance with reporting requirements outlined in Industry Standard on Reporting of BRSR Core.

Limited Level of Assurance- BRSR Disclosures

On the basis of the assessment undertaken, nothing has come to our attention to suggest that the non-financial disclosures (as listed in Annexure I of this statement) in BRSR do not properly adhere to the reporting requirements as per BRSR reporting guidelines in Annexure 16 of SEBI's Master Circular.

Scope of Work and Boundary

The scope of our engagement includes a reasonable level of assurance for the 'BRSR Core' indicators and a limited Level of assurance for the remaining non-financial disclosures in BRSR, for the financial year (FY) 2024-25.

Reasonable assurance of BRSR Core: Boundary covers the performance of KMBL operations that fall under the direct operational control of the Company's Legal structure. Based on the agreed scope with the Company, the boundary of reasonable assurance covers the India operations and 2 international branches (located in DIFC, Dubai and GIFT City, Gujarat*) of KMBL including all offices, branches and ATMs where the company has operational control, unless otherwise stated or specified in the BRSR disclosures by the company.

- BRSR Core Attribute 1 - Green-house gas (GHG) footprint – Total Scope 1 emissions reporting boundary: India Locations
- BRSR Core Attribute 2- Water footprint reporting boundary: 40 key corporate offices
- BRSR Core Attribute 4 - Embracing circularity - details related to waste management by the entity (excluding E-waste, C&D waste**) reporting boundary: 40 key corporate offices

**GIFT City, Gujarat branch is considered by the company as international branch as it only caters to international customers.*
***E-waste and C&D waste are reported for all India locations.*

Limited assurance of the rest non-financial disclosures in BRSR: Boundary for limited assurance of rest non-financial disclosures in BRSR covers the India operations and 2 international branches (located in DIFC, Dubai and GIFT City, Gujarat) of KMBL including all offices, branches and ATMs where the company has operational control, unless otherwise specified in the BRSR disclosures by the company.

Reporting Criteria and Standards

The disclosures have been prepared by KMBL in reference to:

- Industry Standard on Reporting of BRSR Core, Circular No.: SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated Dec 20, 2024.
- BRSR Core (Annexure 17A) and BRSR reporting guidelines (Annexure 16) as per Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155, dated November 11, 2024.
- Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard.
- ISO 14064-1:2018 - Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals

Our competence, and Independence

DNV applies its own management standards and compliance policies for quality control, which are based on the principles enclosed within ISO/IEC 17029:2019- Conformity Assessment – General principles and requirements for validation and verification bodies and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements. DNV has complied with the Code of Conduct during the assurance engagement. DNV's established policies and procedures are designed to ensure that DNV, its personnel and, where applicable, others are subject to independence requirements (including personnel of other entities of DNV) and maintain independence where required by relevant ethical requirements.

This engagement work was carried out by an independent team of sustainability assurance professionals. During the reporting period i.e. FY 2024-25, DNV, to the best of its knowledge, was not involved in any non-audit/non-assurance work with the Company and its Group entities which could lead to any Conflict of Interest. DNV was not involved in the preparation of any statements or data included in the Report except for this Assurance Statement. DNV maintains complete impartiality toward stakeholders interviewed during the assurance process.

Assurance Methodology/Standard and Level of Assurance

This assurance engagement has been carried out in accordance with DNV's VeriSustain™ protocol, V6.0, which is based on our professional experience and international assurance practice, and the international standard in Assurance Engagements, ISAE 3000 (revised) - Assurance Engagements other than Audits or Reviews of Historical Financial Information. DNV's VeriSustain™ Protocol, V6.0 has been developed in accordance with the most widely accepted reporting and assurance standards. DNV conducted a reasonable level of assurance for BRSR Core KPIs under 9 ESG attributes; and a limited level of assurance for rest non-financial disclosures in BRSR.

Basis of our conclusion

As part of the assurance process, a multi-disciplinary team of assurance specialists performed assurance work for selected sites of KMBL. We carried out the following activities:

BRSR Core Indicators - Reasonable level of Assurance	**Rest non-financial disclosures in BRSR - Limited Level of Assurance**
Reviewed the disclosures under BRSR Core, encompassing the framework for assurance consisting of a set of Key Performance Indicators (KPIs) under 9 ESG attributes. The Industry Standard on Reporting of BRSR Core used a basis of reasonable level of assurance.	Reviewed the disclosures under BRSR reporting guidelines. Our focus included general disclosures, management processes, principle wise performance (essential indicators, and leadership indicators) and any other key metrics specified under the reporting framework. The BRSR reporting format used a basis of limited level of assurance.
Evaluation of the design and implementation of key systems, processes and controls for collecting, managing and reporting the BRSR Core indicators. Assessment of operational control and reporting boundaries	Understanding the key systems, processes and controls for collecting, managing and reporting the non-financial disclosures in BRSR. Understand and test, on a sample basis to evaluate adherence to the reporting principles.
Seek extensive evidence across all relevant areas, ensuring a detailed examination of BRSR Core indicators. Engaged directly with stakeholders to gather insights and corroborative evidence for each disclosed indicator.	Collect and evaluate documentary evidence and management representations supporting adherence to the reporting principles. We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to the Company's business and its key stakeholders.
DNV audit team conducted on-site audits for data testing and also, to assess the uniformity in reporting processes and also, quality checks at different locations of the Company. Sites for data testing and reporting system checks were selected based on the percentage contribution each site makes to the reported indicator, complexity of operations at each location (high/low/medium) and reporting system within the organization. Sites selected for audits are listed in Annexure II.	DNV audit team conducted on-site audits for corporate offices and sites. Sample based assessment of site-specific data disclosures was carried out. We were free to choose sites for conducting our assessment.

In both the cases, DNV teams conducted:

- Interviews with selected senior managers responsible for management of disclosures and review of selected evidence to support environmental KPIs and metrics disclosed the Report. We were free to choose interviewees and interviewed those with overall responsibility of monitoring, data collation and reporting the selected indicators.
- Verification of the consolidated reported performance disclosures in context to the Principle of Completeness as per VeriSustain™ Protocol, V6.0 for both reasonable level and limited level of assurance for the disclosures.

Inherent Limitations

DNV's assurance engagement assume that the data and information provided by the Company to us as part of our review have been provided in good faith, is true, complete, sufficient, and authentic, and is free from material misstatements. The assurance scope has the following limitations:

- The assurance engagement considers an uncertainty of ±5% based on materiality threshold for estimation/measurement errors and omissions.
- DNV has not been involved in evaluation or assessment of any financial data/performance of the company. DNV's opinion on specific BRSR Core Attribute 8 on "Number of days of accounts payable", Attribute 9 "Open-ness of business" and all sections of BRSR indicators where currency or INR has been applied relies on the third party audited financial reports of the Company. DNV does not take any responsibility of the financial data reported in the audited financial reports of the Company.
- The assessment is limited to data and information within the defined Reporting Period. Any data outside this period is not considered within the scope of assurance.
- Data outside the operations specified in the assurance boundary is excluded from the assurance, unless explicitly mentioned otherwise in this statement.
- The assurance does not cover the Company's statements that express opinions, claims, beliefs, aspirations, expectations, aims, or future intentions. Additionally, assertions related to Intellectual Property Rights and other competitive issues are beyond the scope of this assurance.
- The assessment does not include a review of the Company's strategy or other related linkages expressed in the Report. These aspects are not within the scope of the assurance engagement.
- The assurance does not extend to mapping the Report with reporting frameworks other than those specifically mentioned. Any assessments or

comparisons with frameworks beyond the specified ones are not considered in this engagement.

- Aspects of the Report that fall outside the mentioned scope and boundary are not subject to assurance. The assessment is limited to the defined parameters.
- The assurance engagement does not include a review of legal compliances. Compliance with legal requirements is not within the scope of this assurance, and the Company is responsible for ensuring adherence to relevant laws.

Responsibility of the Company

KMBL has the sole responsibility for the preparation of the BRSR and is responsible for all information disclosed in the BRSR Core and BRSR. The company is responsible for maintaining processes and procedures for collecting, analyzing and reporting the information and also, ensuring the quality and consistency of the information presented in the Report. KMBL is also responsible for ensuring the maintenance and integrity of its website and any referenced BRSR disclosures on their website.

DNV's Responsibility

In performing this assurance work, DNV's responsibility is to the Management of the Company; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of the Company. DNV disclaims any liability or co-responsibility for any decision a person or entity would make based on this assurance statement.

Use and distribution of Assurance statement

This assurance statement, including our conclusion has been prepared solely for the exclusive use and benefit of management of the company and solely for the purpose for which it is provided. To the fullest extent permitted by law, DNV does not assume responsibility to anyone other than company for DNV's work or this assurance statement. We have not performed any work, and do not express any conclusion, on any other information that may be published outside of the Report and/or on Company's website for the current reporting period.

The use of this assurance statement shall be governed by the terms and conditions of the contract between DNV and the KMBL. to the Management of Kotak Mahindra Bank Limited

Kotak Mahindra Bank Limited (Corporate Identity Number L65110MH1985PLC038137, hereafter referred to as 'KMBL' or 'the Company') has commissioned DNV Business Assurance India Private Limited ("DNV", "us" or "we") to conduct an independent assurance of its sustainability / non-financial disclosures disclosed in its Integrated Report (hereafter referred as 'Report') for the period FY 2024-25.

Scope of Work and Boundary

The agreed scope of work included a limited level of assurance for the information on non- financial performance disclosed in the Report prepared by KMBL based on GRI Topic-specific Standards for the identified material topics for the activities undertaken by the Company during the reporting period 01/04/2024 to 31/03/2025. The reported topic boundaries of non-financial performance are based on the internal and external materiality assessment covering Company's operations as brought out in the section 'About this Report' of the report.

A reasonable level of assurance was carried out for the below mentioned indicators which were also disclosed in the company's BRSR (Annexure 1).

a) GRI 302: Energy 2016 – 302-1, 302-3;

b) GRI 303: Water and Effluents 2018 – 303-3, 303-4, 303-5;

c) GRI 305: Emissions 2016 – 305-1, 305-2, 305-4; and

d) GRI 306 Waste 2020 – 306-3; 306-4; 306-5;

Boundary covers the performance of all global operations of KMBL and its subsidiaries that fall under the direct operational control of the Company's Legal structure unless otherwise specified in the section 'About this Report' or respective disclosures of the report.

Reporting Criteria and Standards

The disclosures have been prepared by KMBL:

- With reference to the requirements of Global Reporting Initiative (GRI) standards 2021
- Integrated Reporting (<IR>) framework of the International Integrated Reporting Council (IIRC)
- Business Responsibility and Sustainability Report (BRSR) as mandated by the Securities and Exchange Board of India (SEBI), India.
- Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard.

Our competence, and Independence

DNV applies its own management standards and compliance policies for quality control, which are based on the principles enclosed within ISO/IEC 17029:2019- Conformity Assessment – General principles and requirements for validation and verification bodies and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements. DNV has complied with the Code of Conduct during the assurance engagement. DNV's established policies and procedures are designed to ensure that DNV, its personnel and, where applicable, others are subject to independence requirements (including personnel of other entities of DNV) and maintain independence where required by relevant ethical requirements.

This engagement work was carried out by an independent team of sustainability assurance professionals. During the reporting period i.e FY 2024-25, DNV, to the best of its knowledge, was not involved in any non-audit/non-assurance work with the Company and its Group entities which could lead to any Conflict of Interest. DNV was not involved in the preparation of any statements or data included in the Report except for this Assurance Statement. DNV maintains complete impartiality toward stakeholders interviewed during the assurance process.

Assurance Methodology/ Standard

DNV carried out the assurance engagement in accordance with DNV's VeriSustain™ protocol (V6.0), which is based on our professional experience and international assurance practice, and the international standard in Assurance Engagements, ISAE 3000 (revised) - Assurance Engagements other than Audits or Reviews of Historical Financial Information. DNV's VeriSustain™ Protocol (V6.0) has been developed in accordance with the most widely accepted reporting and assurance standards. Apart from DNV's VeriSustain™ protocol (V6.0), DNV team has also followed ISO 14064-3 - Specification with guidance for the verification and validation of greenhouse gas statements; ISO 14046 - Environmental management - Water footprint - Principles, requirements, and guidelines, to evaluate disclosures wrt. Greenhouse gases and water disclosures, respectively.

Basis of our conclusion

As part of the assurance process, a multi-disciplinary team of assurance specialists performed assurance work for selected sites of KMBL. We carried out the following activities:

- We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to the Company's business and its key stakeholders.
- Reviewed the disclosures in the report. Our focus included general disclosures, GRI topic specific disclosures and any other key metrics specified under the reporting framework.

- Understanding the key systems, processes and controls for collecting, managing and reporting the non-financial disclosures in report.
- Walk-through of key data sets. Understand and test, on a sample basis, the processes used to adhere to and evaluate adherence to the reporting requirements.
- Collect and evaluate documentary evidence and management representations supporting adherence to the reporting requirements.
- DNV audit team conducted on-site audits for corporate offices and sites. Sample based assessment of site-specific data disclosures was carried out. We were free to choose sites for conducting our assessment.
- Reviewed the process of reporting as defined in the assessment criteria.
- Interviews with selected senior managers responsible for management of disclosures and review of selected evidence to support ESG KPIs and metrics disclosed the Report. We were free to choose interviewees and interviewed those with overall responsibility of monitoring, data collation and reporting the selected indicators.
- Verification of the consolidated reported performance disclosures in context to the Principle of Completeness as per VeriSustain™ Protocol, V6.0 for limited level of assurance for the disclosure.

On the basis of the assessment undertaken, for the GRI disclosures as mentioned in Annexure I, nothing has come to our attention to suggest that the disclosures are not fairly stated and are not prepared, in all material aspects, with reference to the reporting criteria and the principles as per DNV VeriSustain™ Protocol (V6.0) as stated below.

1. Materiality

The process of determining the issues that are most relevant to an organization and its stakeholders.

The Report explains out the materiality assessment process carried out by the Company which has considered concerns of internal and external stakeholders, and inputs from peers and the industry, as well as issues of relevance in terms of impact for KMBL's business. The list of topics has been prioritized, reviewed and validated, and the Company has indicated that there is no change in material topics from the previous reporting period.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Materiality.

2. Responsiveness

The extent to which an organization responds to stakeholder issues.

The Report adequately brings out the Company's policies, strategies, management systems and governance mechanisms in place to respond to topics identified as material and significant concerns of key stakeholder groups.

Nothing has come to our attention to believe that the Report does not meet the requirements related to the Principle of Responsiveness.

3. Reliability/Accuracy

The accuracy and comparability of information presented in the report, as well as the quality of underlying data management systems.

The Report brings out the systems and processes that the Company has set in place to capture and report its performance related to identified material topics across its reporting boundary. The majority of information mapped with data verified through our remote assessments with KMBL's management teams and process owners at the Corporate Office and sampled sites within the boundary of the Report were found to be fairly accurate and reliable. Some of the data inaccuracies identified in the report during the verification process were found to be attributable to transcription, interpretation, and aggregation errors. These data inaccuracies have been communicated for correction and the related disclosures were reviewed post correction.

Nothing has come to our attention to believe that the Report does not meet the principle of Reliability and Accuracy.

4. Completeness

How much of all the information that has been identified as material to the organization and its stakeholders is reported?

The Report brings out the Company's performance, strategies and approaches related to the environmental, social and governance issues that it has identified as material for its operational locations coming under the boundary of the report, for the chosen reporting period while applying and considering the requirements of Principle of Completeness.

Nothing has come to our attention to suggest that the Report does not meet the Principle of Completeness with respect to scope, boundary and time.

5. Neutrality/Balance

The extent to which a report provides a balanced account of an organization's performance, delivered in a neutral tone.

The Report brings out the disclosures related to KMBL's performance during the reporting period in a neutral tone in terms of content and presentation, while considering the overall macroeconomic and industry environment.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Neutrality.

Responsibility of the Company

KMBL has the sole responsibility for the preparation of the Report and is responsible for all information disclosed in the Report. The company is responsible for maintaining processes and procedures for collecting, analyzing and reporting the information and ensuring the quality and consistency of the information presented in the Report. KMBL is also responsible for ensuring the maintenance and integrity of its website and any referenced disclosures on their website.

DNV's Responsibility

In performing this assurance work, DNV's responsibility is to the Management of the Company; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of the Company. DNV disclaims any liability or co-responsibility for any decision a person or entity would make based on this assurance statement.

Use and distribution of Assurance statement

This assurance statement, including our conclusion has been prepared solely for the Company in accordance with the agreement between us. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Management of the Company for our work or this assurance statement. We have not performed any work, and do not express any conclusion, on any other information that may be published outside of the Report and/or on Company's website for the current reporting period.

The use of this assurance statement shall be governed by the terms and conditions of the contract between DNV and KMBL. DNV does not accept any liability if this assurance statement is used for any purpose other than its intended use, nor does it accept liability to any third party in respect of this assurance statement.

Inherent Limitations

DNV's assurance engagement assume that the data and information provided by the Company to us as part of our review have been provided in good faith, is true, complete, sufficient, and authentic, and is free from material misstatements. The assurance scope has the following limitations:

- The assurance engagement considers an uncertainty of ±5% based on materiality threshold for estimation/measurement errors and omissions.
- DNV's opinion on financial disclosures relies on the third party audited financial reports of the Company. DNV does not take any responsibility of the financial data reported in the audited financial reports of the Company.
- The assessment is limited to data and information within the defined Reporting Period. Any data outside this period is not considered within the scope of assurance.
- Data outside the operations specified in the assurance boundary is excluded from the assurance, unless explicitly mentioned otherwise in this statement.
- The assurance does not cover the Company's statements that express opinions, claims, beliefs, aspirations, expectations, aims, or future intentions. Additionally, assertions related to Intellectual Property Rights and other competitive issues are beyond the scope of this assurance.
- The assessment does not include a review of the Company's strategy or other related linkages expressed in the Report. These aspects are not within the scope of the assurance engagement.
- The assurance does not extend to mapping the Report with reporting frameworks other than those specifically mentioned. Any assessments or comparisons with frameworks beyond the specified ones are not considered in this engagement.
- Aspects of the Report that fall outside the mentioned scope and boundary are not subject to assurance. The assessment is limited to the defined parameters.
- The assurance engagement does not include a review of legal compliances. Compliance with legal requirements is not within the scope of this assurance, and the Company is responsible for ensuring adherence to relevant laws.
